

Shreyansh Patil

UI/UX Designer | UI Designer | Interaction Designer

shreyanshpatil003@gmail.com | +91 93220 40042 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Education

Walchand Institute of Technology, Solapur July 2024
Bachelor of Technology in Computer Science and Engineering, **GPA: 9.7**

Walchand College of Arts and Science, Solapur Mar 2020
Higher Secondary Certificate (HSC), **Percentage: 74%**

Work Experience

Onecorps Digital Limited — UI/UX Designer July 2025 – Present

- Delivered end-to-end UI/UX solutions for **8+ client projects** across education, enterprise, and marketing domains.
- Created **20+ screens** and **10+ user flows** using Figma and Adobe XD for responsive web experiences.
- Coordinated design handoff with developers, ensuring visual consistency and reducing rework.

Projects

BloodConnect — Emergency Blood Donation Platform Portfolio | Nov 2025

- Designed a **location-aware blood donation system** using proximity-based filtering within a **10 km radius**.
- Reduced emergency request journey from **7 to 4 steps** through workflow simplification, task prioritization, and cognitive load reduction.
- Improved action discoverability using **visual hierarchy, color contrast, CTA optimization, and accessibility heuristics (WCAG)**.
- Validated interaction flows through usability testing, improving task completion speed and reducing user errors.

DevJam — Developer Collaboration Platform Portfolio | June 2025

- Led end-to-end UX strategy for developer collaboration platform integrating chat, task tracking, and team workflows.
- Conducted stakeholder interviews and defined **information architecture**, mapping **12+ user flows** and task models.
- Facilitated **4 design sprints**, created low- to high-fidelity wireframes in Figma, and iterated using usability testing.
- Applied **interaction design principles** and micro-interactions to enhance task efficiency and workflow clarity.

MyHealthDiary — Health Tracking & Nutrition App Portfolio | Jan 2025

- Designed end-to-end UI/UX across **15+ high-fidelity screens**, including onboarding, dashboard, and analytics.
- Applied **atomic design methodology** to establish scalable component systems and maintain design consistency.
- Created interactive prototypes and conducted usability evaluations to refine navigation patterns.
- Collaborated with developers for design handoff, ensuring pixel-perfect implementation and interaction feasibility.

Technical Skills

UI/UX & Interaction Design: User Research, Personas, User Flows, Information Architecture, Wireframing, Prototyping, Usability Testing, Heuristic Evaluation, Accessibility (WCAG Basics)

Design Tools: Figma, Adobe XD, Sketch, Illustrator

Collaboration & Delivery: Design Systems, Developer Handoff, Stakeholder Communication, Notion, Slack

Technical (Supporting): HTML, CSS, JavaScript, React

Additional Activities And Awards

Competitive Programming (Nov 23): Achieved 11th Worldwide Rank in CodeChef Starters (Div 4)

Hackathon: Achieved Finalist at CoolCode (Hackathon) National Level Event

Typing Speed: Achieved 1st place in a typing competition with a speed of 145 WPM.

Teaching: Held UI/UX Workshops and Taught DSA to multiple students. Solved 50+ students' doubts.
